INDEPENDENT AUDITOR'S REPORT

We have audited the accompanying basic financial statements of the government activities, each major fund, and the aggregate remaining fund information of the Circle of Seasons Charter School, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Circle of Seasons Charter School at June 30, 2017, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-10, Schedule of the School's Proportionate Share of Net Pension Liability on page 37, and Schedule of the School Contributions to the Pension Plan on page 38, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplemental Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Circle of Seasons Charter School's financial statements as a whole. The other Supplementary Information is presented for purposes of additional analysis and is not a required part of the financial statements. The other Supplementary Information is the responsibility of management and was derived from and related directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with the basis of accounting described in the notes to the financial statements. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 14, 2017, on our consideration of the Circle of Seasons Charter School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering Circle of Seasons Charter School's internal control over financial reporting and compliance.

Respectfully submitted,

Hutchinson, Gillahan & Freeh, P.C.

CIRCLE OF SEASONS CHARTER SCHOOL
Fogelsville, Pennsylvania
MANAGEMENT’S DISCUSSION AND ANALYSIS (MD&A)
Required Supplementary Information (RSI)
For the Year Ended June 30, 2017

This discussion and analysis of the Circle of Seasons Charter School’s financial performance provides an overall review of the School’s financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the financial performance as a whole; however, readers should also review the notes to the basic financial statements to enhance their understanding of the School’s financial performance.

The Management’s Discussion and Analysis (MD&A) is a component of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and the Management’s Discussion and Analysis – for State and Local governments issued in 1999. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

Circle of Seasons Charter School’s Mission Statement

The Board of Trustees of Circle of Seasons Charter School (the “School”) offers readers of the School’s financial statements this narrative overview and analysis of the financial activities of the School for the year ended June 30, 2017. We encourage readers to consider the information presented herein in conjunctions with the School’s financial statements.

Financial Highlights

- Total governmental revenues for the year ended June 30, 2017, were \$4,128,514, representing an increase of \$961,294 from June 30, 2016.
- At June 30, 2017, the School reported an ending governmental fund balance of \$541,607, representing an increase of \$175,152 from June 30, 2016.
- The School’s cash balance at June 30, 2017, was \$583,350, representing an increase of \$473,695 from June 30, 2016.

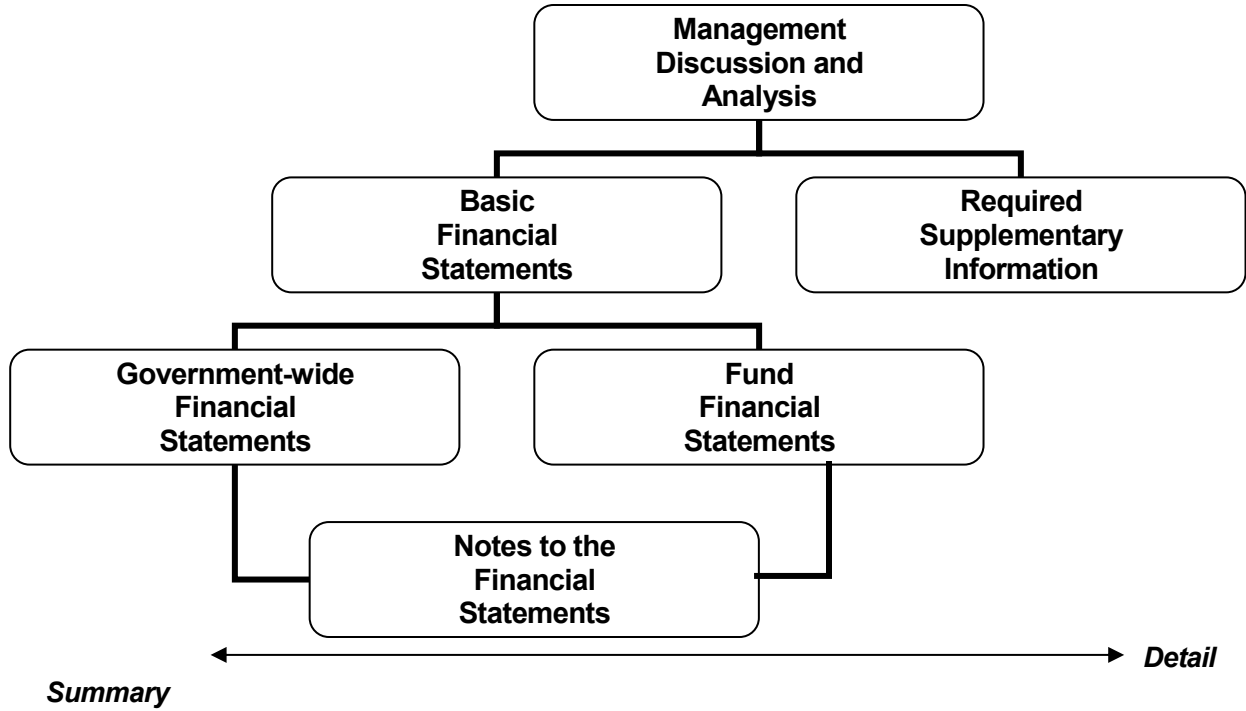

Financial Statements

The discussion and analysis is intended to serve as an introduction to the School’s financial statements. The School’s financial statements as presented comprise four components: (1) management’s discussion and analysis (this section), (2) the basic financial statements, (3) the required supplementary information, and (4) compliance information.

Type of inflow-outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

CIRCLE OF SEASONS CHARTER SCHOOL
Management's Discussion and Analysis (MD&A)
Required Supplementary Information (RSI)
For the Year Ended June 30, 2017

OVERVIEW OF FINANCIAL STATEMENTS

The discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements, as presented, comprise four components: Management's Discussion and Analysis (this section), the Basic Financial Statements, Supplementary Information and Single Audit Requirements (if applicable).

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the School's finances in a manner similar to a private-sector business.

The statement of net position presents information on all of the School's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The statement of activities presents information showing how the School's net position changed during the most recent year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future periods (i.e., expenditures accrued in one year but paid in subsequent years, and depreciation).

The government-wide financial statements reported on the function of the School that is principally supported by subsidies from school districts whose constituents attend the School. The School's function is to provide an alternative educational opportunity.

Fund Financial Statements

A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or purposes. The School, like governmental-type entities, utilizes fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The School has one fund type: the governmental general fund.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Supplementary information

The governmental fund budgetary comparison schedule, schedule of the School's proportionate share of the net pension liability and schedule of School contributions are required supplementary information presented for purposes of additional analysis and are prepared using a basis consistent with accounting principles generally accepted in the United States of America ("GAAP") for state reporting requirements.

Government-Wide Financial Analysis

Management has adopted Governmental Accounting Standards Board ("GASB") Statement No. 34, Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments, which require comparative analysis of current and prior year balances.

CIRCLE OF SEASONS CHARTER SCHOOL
Management's Discussion and Analysis (MD&A)
Required Supplementary Information (RSI)
For the Year Ended June 30, 2017

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

The School's total net position was \$(1,196,520) at June 30, 2017. The June 30, 2017 and June 30, 2016 net position reflects GASB-67 and GASB-68 implementation.

Table 1 – Net Position – Fiscal Year Ended June 30, 2017 and June 30, 2016.

	2017			2016		
	Govern- mental Activities	Business- Type Activities	Total	Govern- mental Activities	Business- Type Activities	Total
Current and Other Assets	\$ 1,053,226	\$ -	\$ 1,053,226	\$ 583,570	\$ -	\$ 583,570

Total Liabilities	<u>5,560,260</u>	<u>-</u>	<u>5,560,260</u>	<u>3,370,928</u>	<u>-</u>	<u>3,370,928</u>
Deferred Inflows of Resources	<u>611,000</u>	<u>-</u>	<u>611,000</u>	<u>16,000</u>	<u>-</u>	<u>16,000</u>
Net Position invested in capital assets, net of related debt	(483,010)	-	(483,010)	(369,111)	-	(369,111)
Restricted	43,015	-	43,015	100,000	-	100,000
Unrestricted	(756,525)	-	(756,525)	(668,254)	-	(668,254)
Total Net Position	<u>\$ (1,196,520)</u>	<u>\$ -</u>	<u>\$ (1,196,520)</u>	<u>\$ (937,365)</u>	<u>\$ -</u>	<u>\$ (937,365)</u>

As noted earlier, net position may, over time, serve as a useful indicator of the School's financial position. In the case of the School, liabilities and deferred inflows exceeded assets and deferred outflows by \$1,196,520 as of June 30, 2017.

CIRCLE OF SEASONS CHARTER SCHOOL
Management's Discussion and Analysis (MD&A)
Required Supplementary Information (RSI)
For the Year Ended June 30, 2017

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the School's activities that are supported by other general revenues.

Table 2 takes the information from that statement and rearranges it slightly so one can see the total revenues for the year.

Government Fund

The focus of the School's governmental fund is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, fund balance may serve as a useful measure of a government's net resources available for spending for program purposes at the end of the fiscal year.

The School's governmental funds, reported an ending fund balance of \$541,607. For the year ended June 30, 2017, the School's revenues of \$6,964,475, exceeded the expenditures of \$6,798,200 by \$166,275.

The School's Statement of Revenues, Expenditures and Changes in Fund Balance is reported on the modified accrual basis of accounting and the School's Changes in Net Position Schedule (Table 2) is reported on the full accrual basis of accounting. A reconciliation between the two bases of accounting is shown on page 23.

General Fund Budget

During the fiscal year, the Board authorizes revisions to the original budget to accommodate variances from the original budget estimates to the actual expenditures of the School. A schedule showing the School's original and final budget amounts compared with amounts actually paid and received is provided.

Circle of Seasons Charter School applies for federal, state and local grants and these grants cannot always be anticipated in the budgeting process and must be added to the budget during the fiscal year. In addition, grants that are anticipated during the budgeting process are based on estimates. The budget must be modified during the fiscal year based on the actual grant awards.

For the Year Ended June 30, 2017**

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of June 30, 2017, the School's investment in capital assets for its governmental activities totaled \$2,416,990. This investment in capital assets includes furniture, land and building improvements.

The School invested \$2,390,433 in additions to capital assets, which included the purchase of their building, during the year.

Table 4 – Capital Assets Net of Depreciation & Amortization – Governmental Activities

	2017	2016
	Governmental Activities	Governmental Activities
Land	\$ 239,043	\$ -
Buildings & Improvements	2,146,400	8,253
Furniture and Equipment	31,547	37,636
TOTAL	\$ 2,416,990	\$ 45,889

Long-Term Debt

During May 2017, the School entered into a \$2,900,000 term loan with a lender to finance the purchase of property and payoff the previous notes. Payments on this loan began July of 2017.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The School is expanding to 5th and 6th grade for the 2017-2018 year. The School does not foresee any substantial variations with next year's economic factors, budgets or rates.

FUTURE EVENT THAT WILL FINANCIALLY IMPACT THE SCHOOL

Besides the 5th and 6th grade expansion, the School does not foresee any future events at this time that will financially impact the School.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide interested parties a general overview of the School's finances. Questions regarding any of the information provided in this report should be addressed to Chief Executive Officer, Circle of Seasons Charter School, 8380 Mohr Lane, Fogelsville, PA 18032.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

Note 1 – Background and Summary of Significant Accounting Policies

A. Background and Reporting Entity

The Circle of Seasons Charter School (the “School”) is organized as a nonprofit corporation in Pennsylvania to operate a charter school in accordance with Pennsylvania Act 22 of 1997 (the “Act”) and is operating under a charter school contract through June 30, 2017. On September 21, 2016, the charter was renewed through June 30, 2021. The School is located in Fogelsville, Pennsylvania. During the 2016-2017 school year, the School served children in grades K through 4. The School is expanding to the 5th and 6th grade for the 2017-2018 school year.

The School’s mission is to nourish and educate students based on the model of natural development. Using Waldorf methods instruction in combination with Howard Gardner’s theory of multiple intelligences, the School provides a whole child approach to learning.

The School has financial accountability and control over all activities related to the students’ education. The School receives funding from local, state and federal government sources and must comply with the requirements of these funding source entities. The reporting entity of the School is based upon criteria set forth by Governmental Accounting Standards Board (“GASB”) Statement No. 14, The Financial Reporting Entity. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity’s financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the School. The School is not a component unit of another reporting entity. The decision to include a potential component unit in the School’s reporting entity is based on several criteria, including legal standing, fiscal dependency and financial accountability. The School has no component units.

B. Basis of Presentation

The financial statements of the School have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The GASB has issued a codification of governmental accounting and financial reporting standards. This codification and subsequent GASB pronouncements are recognized as U.S. generally accepted accounting principles for state and local governments.

Government-wide Statements

The statement of net position and the statement of activities display information about the School as a whole. These statements include the financial activities of the overall government, except for fiduciary activities. The government-wide statements provide information about the primary government (the School) and its component units, if any, without displaying funds. These statements also distinguish between the governmental and business-type activities, if any, of the School and between the School and its discretely presented component units, if any. Eliminations have been made to minimize the double-counting of internal activities.

The statement of activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School and for each function of the School’s governmental activities.

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

- Indirect expenses – expenses of the School related to the administration and support of the School’s programs, such as personnel and accounting (but not interest on long-term debt) – are allocated to programs based on their percentage of total primary government expenses. Interest expenses are allocated to the programs that manage the capital assets financed with long-term debt.
- Program revenues include charges paid by the recipients of goods or services offered by programs and grants, and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenue.

Fund Financial Statements:

The fund financial statements provide information about the School’s funds, including fiduciary funds and blended component units, if any. Separate statements for each fund category (governmental, proprietary, and fiduciary) are presented. The emphasis of governmental and enterprise fund reporting (enterprise funds are a type of proprietary fund) is on major funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. All other funds are aggregated and reported by fund type.

The school reports the following major governmental fund:

General Fund – The General Fund is the operating fund of the School and accounts for all operating revenues and expenditures of the School.

C. Basis of Accounting

The basis of accounting determines when transactions are reported on the financial statements. The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place.

Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The School considers all revenue available if they are collected within 60 days after year-end. Expenditures were recorded when the related fund liability is incurred, except for unmatured principal and interest on general long-term debt, which is recognized when due. Claims, judgments and compensated absences are recognized as expenditures only to the extent they are normally expected to be paid from existing unrestricted fund net position. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term liabilities and acquisitions, the School supports certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the School’s policy to first apply cost-reimbursement grant resources to such programs, followed by general revenues.

The School has adopted the standards for external financial reporting for all state and local governmental entities, which includes a statement of net position and a statement of activities and changes in net position. It requires the classification of net position into three components – invested in capital assets, net of related debt, restricted, and unrestricted.

- ***Invested in capital assets, net of related debt*** – This component of net position consists of capital assets, including restricted capital assets, net of accumulated depreciation and amortization and reduced by the outstanding balances of any bonds, mortgages, notes, or other

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year-end, the portion of the debt attributable to the unspent proceeds is not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net position component as the unspent proceeds.

- **Restricted** – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors, such as through debt covenants, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation. The School's restricted net position represents receivables that are grantor restricted for federal grant purposes.
- **Unrestricted net position** – This component of net position consists of net position that does not meet the definition of "restricted" or "invested in capital assets, net of related debt."

D. Budgets and Budgetary Accounting

The School adopts an annual budget in conformity with the legally enacted budgetary basis, which is not in conformity with GAAP in the budgetary other financing sources include reappropriations from fund equity previously recognized under GAAP.

E. Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

F. Cash

The School's cash consists of cash on hand and demand deposits.

G. Prepaid Expenses

Prepaid expenses include payments to vendors for services applicable to future accounting periods such as rental payments and insurance premiums.

H. Receivables

Receivables primarily consist of amounts due from the Pennsylvania Department of Education for federal, state and local grants and subsidies. Receivables are stated at the amount management expects to collect. As of June 30, 2017, no allowance has been established.

I. Capital Assets

Capital assets, which include leasehold improvements, equipment and software, are reported in the government-wide financial statements. All capital assets are capitalized at cost and updated for additions and retirements during the year. All assets purchased with a useful life greater than one year and costing more than \$2,500 would be capitalized. This does not include textbooks. The School does not possess any infrastructure. Improvements are capitalized; the cost of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

J. Deferred Outflows/Inflows of Resources

Statement No. 63 provides guidance for reporting deferred outflows of resources, deferred inflows of resources, and net position in the statement of financial position and related disclosures. In compliance with Statement No. 63, the statement of net position includes four components: assets, deferred outflows of resources, liabilities, and deferred inflows of resources.

Deferred outflows of resources represent a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

Deferred inflows of resources represent an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

K. Advertising Costs

All costs associated with advertising and promotions are expenses in the year incurred.

L. Income Tax Status

The School is exempt from federal income taxes under Section 501 (c)(3) of the Internal Revenue Service Code. The School did not have any unrelated business taxable income in the fiscal year presented. The School has reviewed the tax positions for each of the open tax years (2013-14 through 2015-16) or expected to be taken in its 2016-17 tax return and has concluded that there are no significant uncertain tax positions that would require recognition in the financial statements.

M. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

N. Net Position

Net position represents the difference between assets plus deferred inflows and liabilities plus deferred outflows. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the School or through external restrictions imposed by creditors, grantors, laws or regulations of other governments.

The School applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

O. Fund Balance

The Governmental Accounting Standards Board has established accounting and financial reporting standards for all governments that report governmental funds. They established criteria for classifying fund balances in the following specifically defined classifications:

- **Nonspendable** fund balance includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

- **Restricted** fund balance includes amounts that are restricted externally by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
- **Committed** fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the government's highest level of decision-making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed that constraint originally. The School's highest level of decision making is the Board of Directors.
- **Assigned** fund balance comprises amounts intended to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. The School expresses this intent through board action and has not delegated this authority.
- **Unassigned** fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications.

Note 2 – Reconciliation of Government-wide and Fund Financial Statements

A. *Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances and the Statement of Activities*

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and School-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. The differences between the governmental funds statement of revenues, expenditures and changes in fund balance and the statement of activities fall into one of three broad categories.

The amounts shown in columns on the following page represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities.
- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation or amortization expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 3 – Stewardship, Compliance, and Accountability

A. Compliance with finance related legal and contractual provisions

The School has no material violations of finance related legal and contractual provisions.

B. Deficit fund balance or net position of individual funds

The School has no deficit fund balances. The School does show a deficit net position in its governmental activities due to the recording of unfunded pension obligations required by GASB 67 and 68.

C. Excess of expenditures over appropriations in individual funds

No individual fund, which has a legally adopted budget, had an excess of expenditures over appropriations except the General Fund. The excess of expenditures over appropriations was attributed to additional special education expenditures.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

D. Budgetary Compliance

The School's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The School does not have any outstanding encumbrances at June 30, 2017.

Note 4 – Detailed Notes on All Funds and Account Groups

Assets

Cash

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the School's deposits may not be returned to the School. The School monitors custodial credit risk by periodically reviewing the Federal Deposit Insurance Corporation's ("FDIC") limits and the published credit ratings of its depository banks. Accounts are insured by the FDIC up to \$250,000 for all accounts kept at one financial institution. Under Pennsylvania Act 72, financial institutions pledge collateral on a pooled basis to secure public deposits in excess of FDIC insurance limits. The School has not elected for its accounts to be covered under this act. As of June 30, 2017, the custodial risk is as follows:

Uninsured and uncollateralized	\$	9
Collateralized with securities held by the pledging financial institution		-
Uninsured and collateral held by the pledging bank's trust department not in the School's name		-
TOTAL	\$	9

Reconciliation to Financial Statements

Investments

Permitted investments for Pennsylvania Schools are defined in the Public School Code of 1949, as amended by Act 10 of 2016, as:

1. United States Treasury Bills;
2. Short-term obligations of the United States Government or its agencies or instrumentalities;
3. Deposits in savings accounts, time deposits or share accounts of institutions insured by the F.D.I.C., and,
4. Obligations, participations or other instruments of any Federal Agency, instrumentality or United States government sponsored enterprise, including those issued or fully guaranteed as

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

the principal and interest by Federal agencies, instrumentalities or United States government sponsored enterprises, if the debt obligations are rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.

5. Repurchase agreements with respect to United States Treasury bills or obligations, participations or other instruments of or guaranteed by the United States or any Federal agency, instrumentality or United States government sponsored enterprise.
6. Negotiable certificates of deposit or other evidences of deposit, with a remaining maturity of three years or less, issued by a nationally or State-chartered bank, a Federal or State savings and loan association or a State-licensed branch of a foreign bank. For obligations with a maturity of one year or less, the debt obligations of the issuing institution or its parent must be rated in the top short-term rating category by at least two nationally recognized statistical ratings organizations. For obligations with a maturity in excess of one year, the senior debt obligations of the issuing institution or its parent must be rated at least "A" or its equivalent by at least two nationally recognized statistical ratings organizations.
7. Bills of exchange or time drafts drawn on and accepted by a commercial bank, otherwise known as bankers' acceptances, if the bankers' acceptances do not exceed 180 days maturity and the accepting bank is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
8. Commercial paper issued by corporations or other business entities organized in accordance with Federal or State law, with a maturity not to exceed 270 days, if the paper is rated in the top short-term category by at least two nationally recognized statistical ratings organizations.
9. Shares of an investment company registered under the Investment Company Act of 1940, whose shares are registered under the Securities Act of 1933 and, if all of the following conditions are met:
 - The investments of the company are the authorized investments listed above.
 - The investment company is managed in accordance with 17 CFR 270.2a-7 (related to money market funds).
 - The investment company is rated in the highest category by a nationally recognized rating agency.
10. Savings or demand deposits placed in accordance with the following conditions:
 - The money is initially deposited and invested through a federally insured institution having a place of business in this Commonwealth, which is selected by the public corporation or municipal authority.
 - The selected institution arranges for the redeposit of the money in savings or demand deposits in one or more financial institutions insured by the Federal Deposit Insurance Corporation, or the account of the public corporation or municipal authority.
 - The full amount of principal and any accrued interest of each such deposit is insured by the Federal Deposit Insurance Corporation.
 - On the same date that the money is redeposited pursuant to above, the selected institution receives an amount of deposits from customers of other financial institutions equal to or greater than the amount of money initially invested through the selected institution by the public corporation or municipal authority.

Fair Value Reporting

The School categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant observable inputs.

As of June 30, 2017, the School did not have any investments.

Due from Other Governments

Due from other governments represent receivables for revenues earned by the School. As of June 30, 2017, the following amounts are due from other governmental units:

Due From	General Fund
Local	\$ 314,620
State	43,015
Federal	32,359
	\$ 389,994

Capital Assets

Capital asset balances and activity for the year ending June 30, 2017, were:

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflow of resources, represents a consumption of net position or fund balance that applies to a future period(s) and thus, will not be recognized as an outflow of resources (expense/expenditure) until then. The School has the following items that qualify for reporting in this category:

Changes in proportions regarding pensions	\$	1,167,000
Net difference between projected and actual investment earnings		122,000
Pension contributions subsequent to the measurement date		136,524
Changes in pension assumptions		79,000
TOTAL	\$	<u>1,504,524</u>

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position for fund balance that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

The School has the following items that qualify for reporting in this category.

Difference between expected and actual pension experience	\$ 18,000
Changes in proportion regarding pensions	593,000
TOTAL	\$ 611,000

Long-Term Liabilities

Long-term liabilities balances and activity for the year ended June 30, 2017, were:

	BEGINNING BALANCE	ADDITIONS	REDUCTIONS	ENDING BALANCE	AMOUNTS DUE WITHIN ONE YEAR
GOVERNMENTAL ACTIVITIES:					
<i>General Obligation Debt:</i>					
Fixed Rate Term Loan	\$ 515,000	\$ 2,900,000	\$ 515,000	\$ 2,900,000	\$ 77,248

TOTAL GOVERNMENTAL ACTIVITY					
LONG-TERM LIABILITIES	\$ 3,157,000	\$ -	\$ 976,000	\$ 5,081,000	\$ 77,248

Payments on the fixed rate term loan are made by the General Fund. Total interest paid during the year by the General Fund was \$9,702.

Fixed Rate Term Loan

On May 11, 2017, the School entered into a fixed rate term loan with Reinvestment Fund, Inc. for \$2,900,000. The purpose of this loan was for the purchase of the Charter School building and adjoining properties. The term loan is 36 months with a fixed rate of 6.03% and monthly payments of \$20,810 with a final balloon payment of \$2,674,427 on June 1, 2020. The outstanding debt service requirements at June 30, 2017 are:

FISCAL YEAR	PRINCIPAL	INTEREST
2018	\$ 77,248	\$ 172,472
2019	82,029	167,690
2020	2,740,723	162,614
TOTAL OUTSTANDING	\$ 2,900,000	\$ 502,776

Bank Line of Credit

On May 11, 2017, the School entered into a \$100,000 line-of-credit with Peoples Security Bank & Trust. The line-of-credit, which requires monthly payments of interest and matures May 11, 2018, and is secured by a second mortgage on the building acquired by the School. As of June 30, 2017, there was no balance outstanding on the line-of-credit.

CIRCLE OF SEASONS CHARTER SCHOOL

Fiscal Year Ended June 30, 2017

Compensated Absences

Paid Time-Off Days

Circle of Seasons Charter School provides paid leave benefits (herein referred to as Paid Time Off or PTO) to all full-time employees for periods of temporary absence due to illnesses, injuries or personal needs.

Full-time salaried employees receive 10 paid PTO from July 1 to June 30. PTO days must be approved in accordance with the guidelines established by COS. If the employee does not use all of their 10 days by June 30, those unused days shall be paid out at a rate of \$150 per day less taxes in the pay following the end of the school year.

In accordance with GASB Statement No. 16, the portion of unused PTO earned at June 30, 2017, that will use currently available financial resources is \$33,748, including fica tax. All PTO was paid out with currently available resources so there was no long-term liability for compensated absences as of June 30, 2017.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pension, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS) and additions to/deductions from PSERS' fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

General Information about the Pension Plan

Plan Description

PSERS is a governmental cost-sharing multiple-employer defined benefit pension plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.pa.gov.

Benefits provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with at least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of 3 years of service or attain a total combination of age and service that is equal to or greater than 92 with a minimum of 35 years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service. For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

Contributions

Member Contributions:

Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class T-C) or at 6.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System on or after July 22, 1983, and who were active or inactive as of July 1, 2001, contribute at 6.25% (Membership Class T-C) or at 7.50% (Membership Class T-D) of the member's qualifying compensation.

Members who joined the System after June 30, 2001 and before July 1, 2011, contribute at 7.50% (automatic Membership Class T-D). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with services rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Employer Contributions:

The school districts' contractually required contribution rate for the fiscal year ended June 30, 2017 was 29.20% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the School were \$136,524 for the year ended June 30, 2017.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2017, the School reported a liability of \$2,181,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2015 to June 30, 2016. The School's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2016, the School's proportion was 0.0044%, which was a decrease of 0.0017% from its proportion measured as of June 30, 2015.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

For the year ended June 30, 2017, the School recognized pension expense of \$136,524. At June 30, 2017, the School reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows Of Resources	Deferred Inflows Of Resources
Difference between expected and actual experience	\$ -	\$ 18,000
Changes in assumptions	79,000	-
Net difference between projected and actual investment earnings	122,000	-
Changes in proportions	1,167,000	593,000
Difference between employer contributions and proportionate share of total contributions	-	-
Contributions subsequent to the measurement date	136,524	-
TOTAL	\$ 1,504,524	\$ 611,000

\$136,524 reported as deferred outflows of resources related to pensions resulting from School contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended June 30:	Amount
2017	\$ 380,000
2018	380,000
2019	100,000
2020	(102,000)
2021	-
Thereafter	-

Changes in Actuarial Assumptions

The total pension liability as of June 30, 2016 was determined by rolling forward the System's total pension liability as of June 30, 2015 to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2016:

- The Investment Rate of Return was adjusted from 7.50% to 7.25%.
- The inflation assumption was decreased from 3.0% to 2.75%.
- Salary growth changed from an effective average of 5.50%, which was comprised of inflation of 3.00%, real wage growth and for merit or seniority increases of 2.50%, to an effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases.
- Mortality rates were modified from the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back 3 years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For disabled annuitants the RP-2000 Combined

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

Disabled Tables (male and female) with age set back 7 years for males and 3 years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. The actuarial assumptions used in the June 30, 2016 valuation were based on the experience study that was performed for the five-year period ending June 30, 2015. The recommended assumption changes based on this experience study were adopted by the Board at its June 10, 2016 Board meeting, and were effective beginning with the June 30, 2016 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Pension assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Global Public Equity	22.5%	5.3%
Fixed Income	28.5%	2.1%
Commodities	8.0%	2.5%
Absolute Return	10.0%	3.3%
Risk Parity	10.0%	3.9%
Infrastructure/MLPs	5.0%	4.8%
Real Estate	12.0%	4.0%
Alternative Investments	15.0%	6.6%
Cash	3.0%	0.2%
Financing (LIBOR)	-14.0%	0.5%
TOTAL	100.0%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2016.

Discount rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members.

Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	1% Decrease 6.25%	Current Discount Rate 7.25%	1% Increase 8.25%
School's proportionate share of the net pension liability	\$ 2,667,000	\$ 2,181,000	\$ 1,771,000

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website www.psers.pa.gov.

Defined Contribution Retirement Plan Alternative to Pennsylvania School Employees' Retirement System

All new employees (hired on or after July 1, 2016) whether or not they were previously members of PSERS will be enrolled in the alternative retirement program and are not eligible to be enrolled in PSERS. All current employees (hired prior to July 1, 2016) of the Charter School who are currently members of PSERS shall remain members of PSERS but can contribute to the alternative retirement plan without the School matching those contributions.

Note 5 – Risk Management

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The School carries commercial insurance for such risks. There has been no significant reduction in insurance coverage from inception in any of the School's policies.

Note 6 – Local Educational Agencies Revenues

Charter Schools are funded by the local public school districts in which each student resides. The rate per student is determined annually and is based on the budgeted total expenditure per average daily membership of the prior school year for each school district. The annual rate is paid monthly by each sending school district and is prorated if a student enters or leaves during the year. Total tuition revenue from other local education agencies was \$3,876,304.

Note 7 – Government Grants and Reimbursement Programs

The School participates in numerous state and federal grant and reimbursement programs, which are governed by various rules and regulations of the grantor agencies. Costs charged to the respective grant programs and reimbursement programs for retirement expenses, and facility lease costs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the School has not complied with the rules and regulations governing the grants and reimbursement programs, refunds of any money received may be required and the collectability of any related receivables may be impaired. In the opinion of the School, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies.

CIRCLE OF SEASONS CHARTER SCHOOL
Notes to Basic Financial Statements
Fiscal Year Ended June 30, 2017

Note 8 – Contingencies

From time to time the School is a party to legal proceedings including claims involving employment and other matters. The School carries insurance coverage against all such claims. Any such claims are vigorously defended by the School and its indemnities. Management believes that such legal proceedings to which it may become party to would not have a material adverse effect upon its financial position or results of operations. According to the School's legal counsel, as of June 30, 2017, there was no material pending or threatened litigation.

Note 9 – Restricted Net Position

Invested in Capital Assets, Net of Related Debt

The component of this restriction in the governmental activities column is total capital assets (net of depreciation and amortization) of \$2,416,990 less related debt of \$2,900,000.

Other Restrictions

This restriction of \$43,015 pertains to federal grant receivables at year-end.

Note 10 – Governmental Fund Balances

Detailed information about aggregated fund balances:

Nonspendable Fund Balance

Prepaid Expenditures	\$	78,882
Security Deposit		1,000
TOTAL	\$	79,882

Restricted Fund Balance

Restricted for use in Federal Programs is \$43,015.

The School's highest level of decision-making is the Board of Directors.

A resolution of the Board of Directors is required to establish, modify or rescind a fund balance commitment or assignment.

Note 11 – Prior Period Adjustment

A prior period adjustment to the net position was made to record changes in a prior period pension liabilities resulting in a \$25,000 decrease in net position. The effect of those pension liability changes along with a prior period adjustment for a rent subsidy receivable resulted in a \$8,877 increase in the fund balance.

Note 12 – Subsequent Events

Subsequent events have been evaluated through November 14, 2017, which is the date the financial statements were issued.

November 14, 2017

Board of Trustees
Circle of Seasons Charter School

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

We have audited the basic financial statements of the governmental activities and the general fund of The Circle of Seasons Charter School, as of and for the year ended June 30, 2017, which collectively comprise the Circle of Seasons Charter School's basic financial statements and have issued our report thereon dated November 14, 2017. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control over Financial Reporting

In planning and performing our audit, we considered the Circle of Seasons Charter School's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Circle of Seasons Charter School's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Circle of Seasons Charter School's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

CIRCLE OF SEASONS CHARTER SCHOOL

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Circle of Seasons Charter School's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,
